           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (ii)   Internet
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (iii)   Computer ergonomics
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (iv)   Spreadsheet
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (v)   Word processing
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (vi)   File path
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (vii)   File extension
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (viii) Table
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (ix)   Technology
           …………………………………………………………………………………………
           …………………………………………………………………………………………
   (x)   Cell
           …………………………………………………………………………………………
           …………………………………………………………………………………………

4. At the end of the year Victortech Labs solution a company that trains people skills of ICT using their well-equipped computer lab is planning for the end of year party which will take place from USA and all employees have to be present at the party. This exposes a lot of danger to the ICT tools since monitoring will not be possible.
   Guide the CEO Mr. Victor on various ways in which the computer lab and other ICT tools will remain safe while in the party time. (5scores)
